

Certification

Once an applicant is accepted into MCC’s Alternative Teacher Certification Program and has a teaching position, the student **must apply** for Probationary Certification **whether or not** the public/private school district requires such certification. Students must apply for certification with the **State Board for Educator Certification (SBEC)**. After successfully completing the Internship class, passing all necessary examinations, and meeting all MCC requirements, the student will want to apply for full standard certification. **Students must provide the program with written documentation for all observation and professional development hours.**
