## POLICIES AND PROCEDURES

Reference:	B-XIV	Effective Date:	01/12/2021
Subject:	Student Assessment System		
Source:	Vice-President, Instruction and Student Engagement		
Approval Authority:	President	Approval Date:	01/12/2021
History:	Consolidating Policies B-XIV-a, b and c, and B-XIII		
Remarks:	Update from 09/29/2020		

**I. Purpose:**

The purpose of this policy is to define the academic grading policies at McLennan Community College.

**II. Student Grading System:**

A college grade indicates the level of knowledge, understanding, and competence a student attains in relation to the objectives, learning outcomes, and subject matter of a course. This level is determined by the faculty member's evaluation of the student's performance during the semester. A grade is assigned for each course in which a student is enrolled, and that grade is entered on the student's permanent record. Course grades may be accessed through Web Advisor on the MCC Web page at [www.mclennan.edu](http://www.mclennan.edu).

The following shall be the system used for reporting and evaluating student grades at McLennan Community College:

Grade in Course	Grade Points Per College Level Semester Hour
<b>A      EXCELLENT</b>	4
<b>B      GOOD</b>	3
<b>C      FAIR</b>	2
<b>D      POOR</b>	1
<b>F      FAILING</b>	0

**W      WITHDRAWAL** - This grade is given for a faculty or student-initiated course withdrawal through the 60 percent point in the semester or term. If the student is absent for more than 25 percent of their course work after the 60% point in the semester or term, the instructor may assign a W if the student is passing or assign the final grade the student earned at the end of the semester based on that student's performance on all assignments assigned within the course syllabus for the semester.

# McLennan Community College

## POLICIES AND PROCEDURES

In extenuating circumstances, the instructor may assign a W to a student who is not passing.

**I INCOMPLETE** - This grade is given when a course is incomplete because of a student's absence caused by illness or other reasons acceptable to the faculty. To be eligible for this grade the student must have essentially completed the course. The work remaining should be of such a nature as to not require class attendance. If the work is not made up within the following long semester, the "I" will be changed to an "F" and the course must be repeated if credit is to be given.

**AU AUDIT** - This grade indicates a course is taken for no credit.

Due to requirements of various accrediting agencies and the nature of clinical education, the grading policies of the Health Professions programs may differ as approved by the Vice President of Instruction and Student Engagement.

The following grades may be assigned for internships, practicums, special projects, seminars, CLEP Examinations, credits by examination, and other courses approved by the Vice President of Instruction and Student Engagement:

**CR CREDIT** - No grade points are earned. This grade will be given when the student meets the criteria established by the faculty for passing that specific course. Appropriate credit hours are earned.

**NC NONCOMPLETION** - No grade points are earned. This grade will be given when the student does not complete the criteria for the CR in the special courses listed above nor all of the modules required to complete a self-paced course. The student must re-enroll in the course to receive credit.

Grades in developmental courses will be A, B, C, W, or NC. No grade points are earned for any grade in a developmental course; appropriate developmental credit hours are earned.

Continuing education programs may use the student grading system of A, B, C, D, F, W, and I. A grade of D or F is not passing and the student will have to repeat the course for continuing education units. No grade points are earned for any grade in a continuing education course; appropriate continuing education units (CEU) are earned. The selection of continuing education programs to use the grading system and any exceptions are made at the discretion of the Dean of Workforce and Public Service.

## POLICIES AND PROCEDURES

### III. **Final Examinations:**

Each credit course conducted by the College will have a syllabus and instructor plan (IP) which will include a process for measuring learning outcomes. Included in that plan should normally be a final experience which may include a traditional final exam, projects, presentations, or other appropriate terminal evaluations. The final exam schedule should be used as a guide to honor both the student's and faculty's schedule. Exceptions to the final exam schedule may be necessary and should be determined early in the semester and communicated clearly on the syllabus and IP to the students with the approval of the appropriate Division Chair or Program Director and Dean.

The syllabus and IP for online courses will also include a similar process for measuring student learning outcomes that will fit within the normal instructional calendar. This may or may not include administering a final experience during the final exam week or no earlier than the last week of classes. Exceptions should be approved by the appropriate Division Chair, or Program Director, Dean, and Vice President of Instruction and Student Engagement.

### IV. **Exemption from Final Examinations:**

Any syllabus and IP which include exemptions from the final examination or other final evaluation for good and sufficient reasons should receive approval from the appropriate Division Chair or Program Director and the Dean. Such plans should be approved prior to the first class day, and specified in the syllabus and instructor plan.

### V. **Grade Point Average:**

Grade points are earned in courses where grades of A, B, C, or D are made. While no (0) grade points are earned for courses in which an "F" is received, the semester hour value of such courses is included in the total number of semester hours attempted. To determine grade-point average, total all grade points from all courses in which any of the preceding grades are given, and divide the total by the semester hours attempted.

When courses are repeated, the credit hours and grades points earned the last time the course is taken are counted toward computing the grade point average. If the course is identified in the catalog as repeatable for credit, all grades are included in the calculation of grade point averages. A punitive grade (F) cannot be removed when a student enrolls in that course again and receives a withdrawal or incomplete grade. In this case, the first attempt will continue to be included in the overall grade point average.

**WARNING:** Students should consult the catalogue of the four-year college to which they plan to transfer in order to determine the procedure and computations of grades and grade-point averages, as colleges may differ in their methods of computations.

## POLICIES AND PROCEDURES

### VI. **Grade Assignment:**

At the end of each semester or term, faculty shall assign a grade for each student enrolled in their classes, in accordance with the College grading system, and shall submit their grades to the College's Student Administrative System for verification by the Office of Records and Registration. All grades are due by noon on Fridays of the long semester and by noon on a designated day in the minimester and summer semesters. Public posting of grades is prohibited.

If the faculty desires to change a grade originally assigned, the faculty may change the grade by submitting a Grade Change Request through WebAdvisor to the Office of Records and Registration within the next long semester immediately following the enrollment period during which the student was assigned the (original) grade. Grade change requests not submitted within the time limitations prescribed (above) or involving other unusual circumstances, will require the appropriate Dean's approval.

### VII. **Disposition of Conflicting Course Grade Reports**

In the event that conflicting grade reports for any given course should be submitted to the registrar within a given semester due to concurrent course enrollment and credit by examination, only one entry shall be made on the student's transcript as follows:

1. In cases of credit by examination (CR) coupled with failure to establish credit through regular course work (W or F), the transcript will show a single course entry a (CR) the operative grade for purposes of establishing credit and determining the student's grade point average.
2. In cases of credit by examination (CR) coupled with successful completion of the course through regular course work (A, B, C, or D), the transcript will show a single entry with a grade selected by the student from these two alternatives. In such cases, the student should be presented the alternatives in writing, and a signed statement of selection should be obtained from the student and retained as part of the record in the Office of Records and Registration.

### VIII. **Grade Change Appeal**

A student may appeal a grade within a period of one year from the day the class ends. Questions regarding potential grade errors should be directed to the faculty of record. Grade changes may be made by the faculty of record only or, in the absence of the faculty, the appropriate Dean. Grade appeals will not be considered after one year.
