

Supply Chain & Operations Management

If you'd like to have a supervisory role in manufacturing or service industries, McLennan Community College can train you to get the career you want. You'll be prepared to step into a management position and help enhance the performance of your organization.

McLennan's curriculum focuses on improving quality in organizations of all types using the Lean Manufacturing and Six Sigma approach. This includes measuring improvements using higher-level mathematics and statistics. Graduates of this two-year program earn an Associate of Applied Science degree.

What You'll Learn

- Production
- Quality Assurance
- Inventory
- Supply Change Management (Logistics)
- Purchasing
- Scheduling
- Safety

Courses

- First-year students — BMGT 1331 Production and Supply Chain & Operations Management
- Second-year students —
QCTC 1343 Quality Assurance
- QCTC 1391 Lean Six Sigma
- QCTC 1301 Total Quality Management

What You'll Get

All courses are taught by a Certified Six Sigma Black Belt with more than 10 years of industry management experience. The program culminates with a Six Sigma project, allowing students to receive hands-on, real-world experience.

Supply Chain And Operations Management uses the Lean Manufacturing and Six Sigma approach to improve the quality of organizations.

Financial Aid

If you are interested in applying for financial aid, please complete the FAFSA at www.fafsa.gov by June 1 for the following academic year. For more information about financial aid, go to www.mclennan.edu/financial-aid or call McLennan's Highlander Central at 254-299-8622.

Gainful Employment

Important information about the educational debt, earnings, and completion rates of students in these programs is available at www.mclennan.edu/gainful-employment.
